

Fairbanks FB2250 with Aegis MS Industrial Floor Scale

Built for durability, accuracy, and seamless POS integration, the Fairbanks FB2250 paired with Aegis MS delivers reliable performance for thrift and resale environments where precision and compliance matter.

Product Overview

The Fairbanks FB2250 Industrial Floor Scale is a heavy-duty weighing solution designed to handle bulk items and high-throughput operations. With a low-profile platform and NTEP-compliant accuracy, it integrates directly with Counterpoint to streamline weighted item sales and reduce manual entry errors. Ideal for thrift operations weighing textiles, shoes, books, or bulk goods, this solution ensures fast, compliant transactions at the point of sale.

Key Features

- 1,000 lb capacity
- 36" x 36" or 48" x 48" mild steel platform options
- Low 3" profile for easy cart and pallet loading
- FB2250 ABS digital indicator
- Serial interface for POS integration
- Ramp and pit frame options available
- NTEP compliant for legal-for-trade applications
- 0.5 lb minimum weight Counterpoint POS Integration

Counterpoint POS Integration

- Automatically transfers weight data to Counterpoint
- Improves transaction speed
- Ensures consistent pricing accuracy
- Enhances reporting and inventory visibility
- Supports compliance and audit readiness

The FB2250 with Aegis MS provides a durable, high-capacity weighing solution that simplifies weight-based transactions while maintaining accuracy, efficiency, and compliance.
