

CAS LP-1000

Label Printing Deli Scale

The CAS LP-1000 is a powerful, retail-ready deli scale that combines precision weighing with integrated label printing. Designed for specialty grocery environments, it streamlines weighted item sales by generating scannable barcodes that integrate directly with Counterpoint.

Product Overview

The CAS LP-1000 delivers accurate weight-based pricing and on-demand barcode label printing in one compact unit. With built-in PLU management and multiple label format options, it is ideal for fresh foods, prepared items, bulk goods, and specialty products sold by weight. NTEP-certified and legal-for-trade, this scale ensures compliance while improving operational efficiency at the service counter.

Key Features

- 30 lb capacity with 0.01 lb precision
- Built-in thermal label printer
- 4,000 PLU capacity with 54 speed keys
- 30 standard label formats included
- 15" x 9.6" stainless steel platter
- NTEP certified legal-for-trade

Counterpoint POS Integration

- Eliminates manual entry errors
- Accelerates checkout speed
- Improves pricing accuracy and margin control for weighed items
- Enhances reporting visibility with precise quantity and sales tracking
- Supports labeling compliance and traceability

The LP-1000 creates a more efficient service counter workflow while maintaining accuracy, compliance, and customer confidence.
